

Investing for Success

RUNAWAY BAY
SPORT & LEADERSHIP
EXCELLENCE CENTRE

Under this agreement for 2022 The Runaway Bay Sport and Leadership Excellence Centre will receive

\$5,633*

This funding will be used to

- Increase programming opportunities for pool-based activities while also adopting inclusive practices for these activities to become more accessible for younger students and students with special needs when learning in an aquatic environment.
- Continue to provide our educational service to larger school cohorts and reach over 10,000 state school students annually with national-curriculum aligned programs that target student growth in RBSLEC's specialised fields.

Our initiatives include

- Spending **\$948** to purchase a class set of 'aqua-belts'.
- Allocating the remaining **\$4,685** towards the budget for x2 Centre-funded teaching resources for 2022.

Our school will improve student outcomes by

- Purchasing a class-set of aqua-belts to provide RBSLEC with an opportunity to expand its' program to introduce other activities that offer additional platforms for students to access the curriculum. It will also assist RBSLEC in it's drive to embed more inclusive practices by offering additional support to students with special needs and those with low levels of confidence in aquatic environments.
- Funding for x2 additional teaching resources that are required to deliver RBSLEC's curriculum-aligned programs in 2022. Representing one-third of our teaching profile, these resources are pivotal in reaching 120 state schools and ensuring over 10,000 students are empowered to lead themselves and positively influence others. Beyond RBSLEC's permanent teaching allocation of 4 teachers, the Centre has been provided with regional support for a 5th teaching resource for the past 4 years and a 6th teacher for the 12 months leading up to the end of 2021. RBSLEC is required to establish a calendar 12 months in advance and with these resources no-longer available, the operation is committed to delivering a program to our partner schools that requires 6 teachers.
